"I attended Imran Sir's revision classes for Economics and it was one of the best decisions I made in my A/L journey. Sir's teaching methods were very valuable for me as even the most boring sections of the subject were presented in an interesting and creative manner so they were very easy to understand and remember.

In addition, the unit based and overall mock exams, OTQ sessions and the PASS program immensely helped me to cover all my doubts and fill all the gaps so that I faced the exam with 100% confidence.

I also appreciate how sir added positive values to our education to make us first and foremost, good human beings.

Thank you sir for making Economics an easy and enjoyable subject for your students and I'm thankful to everyone who recommended sir's classes to me."

3A's, Z-Score 2.80, Pursuing Higher Studies in France

As I was determined to give my maximum to one of the most competitive examination in Sri Lanka, I joined Imran sir's classes under the recommendation of some of my friends. The first class itself was a memorable experience as it awakened in me a keen interest in Economics which lasted throughout. The thorough explanation of concepts not only prepared us for the exam but equipped us with an in-depth understanding of the subject to tackle any type of question.

What strikes me the most about Imran sir as a teacher is his genuine interest in the success of his students. I'm very grateful towards Imran Sir for helping me to reach my goal and it is my hope that more and more students will have the privilege to study under him.

Shalomi Daniel (Ladies' College)

3As, Z-Score 2.44, LLB, University of Colombo

The mock exams, notes, questions and explanations were of immense help. Even after a long day of teaching he would patiently explain all the doubts and questions we loaded him with! It was a truly great learning experience.

I take this opportunity to express my heartfelt gratitude to Imran Sir for all the long hours of hard work and dedication he put in to help us and wish him all the very best for the future.
